Ho Chi Minh City, VN

EDUCATION

International University - VNU HCMC

Ho Chi Minh City, VN

Bachelor of Engineering in Computer Science

2023 – 2027

- Scholarship Semester 2 2024-2025 (GPA: 87.8/100)
- Scholarship Semester 1 2025-2026 (GPA: 85.0/100)
- Relevant Course: Data Structures and Algorithms, Object-Oriented Programming, Principles of Database Management, Artificial Intelligence, Software Engineering, Web Development, Mobile App Development
- Most relevant courses in university learn about java and Spring Boot, but I have self-studied and practiced with JavaScript, TypeScript, React, Node.js, NestJS, PostgreSQL, Redis, Firebase, Docker, Azure DevOps to build my projects.

PROJECTS

IUROADMAP | *Documentation* | *Website* | *Source Code*

Aug 2025 – Present

React | *TypeScript* | *NestJS* | *PostgreSQL* | *Redis*

- Developed an interactive career ecosystem platform designed to simplify academic planning and career path tracking for IU students instead of documents.
- Architected the backend using **Microservices** and an **API Gateway** to ensure system scalability and independent service deployment.
- Engineered a high-performance **Single Page Application (SPA)** utilizing **React** and **Vite** for optimized rendering and a seamless user interface.
- Integrated Prisma ORM and Redis to manage complex data relations and improve system response times.
- CI/CD pipeline setup in AzureDevOps and deployment on Vercel and Railway, ensuring rapid iteration and continuous delivery.
- Acted as **Scrum Master**, **Backend Lead** and **Architect** driving database design (ERD), sequence diagrams, and end-to-end deployment across Vercel, Railway(for staging) and VPS (for production).

CaloCola | *Website* | *Source Code*

January 2026 – April 2026

React | *TypeScript* | *NestJS* | *PostgreSQL* | *Redis*

- A calorie tracking web application with foods tracking exercise tracking with a visualization dashboard.
- Beeswarm Chart (foods) using and an Heat map (exercise) using **D3.js**
- Included a daily calories tracking and analyze and recommend the nutrient intake of users.
- Implement SPA using React and Vite.
- Act as **Frontend Lead** and **Backend Lead**, responsible for developing the user interface and implementing the backend logic, respectively. Conduct core business analysis **BA**. Implemented CI/CD pipeline setup and deployment on Vercel and Railway. **DevOps**

Knock-To-Know | *Source Code*

August 2025 – December 2025

Flutter | *TensorFlow Lite* | *Python* | *Firebase*

- a multimodal Flutter app that uses an on-device computer vision model (trained on the 225K+ image Fruit-262 dataset) to identify fruits, and a custom acoustic model to analyze microphone "knocks" for ripeness detection.

EXTRACURRICULAR ACTIVITIES AND LEADERSHIP EXPERIENCE

Agile IUROADMAP Group

Ho Chi Minh City, VN

Scrum Master & Development Lead

Sep 2025 – Present

- Served as a **Scrum Master**, facilitating Agile ceremonies including Daily Stand-ups, Sprint Planning, and Retrospectives for a team of developers.
- Leveraged **Azure DevOps (Azure Boards)** to manage the Product Backlog, define Work Items (User Stories, Tasks), and track sprint progress.
- Established version control workflows using **Azure Repos** and Gitflow to ensure seamless code integration between Frontend and Backend modules.

- Monitored team velocity via Burndown charts and resolved technical blockers to ensure consistent on-time delivery of project milestones.
- Engineered automated **CI/CD pipelines** using **Azure Pipelines**, integrating automated linting, unit testing, and **Docker** containerization to reduce manual deployment time.

IEM ART CLUB

Ho Chi Minh City, VN

Active Member & Department Coordinator

Sep 2024 – Present

- Collaborated within a large-scale organization of **over 100 members** structured into 5 specialized departments: Operations, Performance, Program, HR, and Media.
- Contributed to the club's financial sustainability by executing **fundraising campaigns** and securing corporate sponsorships for university music shows.
- Engaged in cross-functional coordination to streamline event logistics, ensuring seamless communication between the Program and Media teams for high-traffic shows.

SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, Java, React, Kotlin, Python

Frameworks: Spring Boot, Node.js, Express.js, NestJS

Databases: MySQL, PostgreSQL, Firebase, Redis

DevOps: AzureDevOps, Docker, Kubernetes, Microservices, CI/CD (Azure Pipelines, GitHub Actions, Jenkins) , Linux Admin, VPS

Tools: Supabase, Vercel, Render, AzureDevOps, Git, Figma, Postman, Railway , 100+ LeetCode Problems

Soft Skills: Communication, Teamwork, Problem-Solving, Leadership, Adaptability
